

LAKSHY GUPTA

Full Stack Web3 Developer | Specializing in Full-Stack MERN Development

☎ [+91-9219193410](tel:+91-9219193410) ✉ lakshygupta123@gmail.com Portfolio [in](#) [Linkedin](#) [Github](#)

EDUCATION

Graphic Era University, Dehradun

B.Tech - Computer Science and Engineering

2019 – 2023

Graduated, SGPA: 8.0

TECHNICAL SKILLS

Programming Languages: Solidity, JavaScript, TypeScript

Web Technologies: HTML5, CSS3, Node.js, Express.js, Web3.js

Databases: MongoDB, MySQL, Postgres

Frameworks/Libraries: React.js, Next.js, TailwindCSS, Socket.io, Ether.js, Hardhat, Shadcn, Firebase

Developer Tools: Git, GitHub, VS Code, Metamask, Remix, Infura, AWS, Postman, Thunder Client, Linux, Prisma, Multer

EXPERIENCE

Full Stack Developer | Growing Bytes Technologies LLP

April 2024 - Present

- Engineered and launched high-performance web applications using **React.js** and **Node.js**; boosted user engagement by **35%** and slashed load times by **20%**, enhancing overall user experience and satisfaction.
- Implemented **RESTful APIs** and integrated third-party services, boosting operational efficiency by **30%** and reducing integration time by **40%**.
- Optimized complex database queries and managed **MongoDB** instances, reducing response times by **20%**, improving operational efficiency and overall user experience.

Full Stack Blockchain Developer | Zanthium Technosoft

September 2023 - March

- Spearheaded the development and successful deployment of **5+ smart contracts** using **Solidity** and **Hardhat**, achieving a notable **30% improvement** in transaction efficiency.
- Utilized **Ether.js** for efficient interaction with Ethereum, enhancing application performance by **25%**.
- Integrated the MLM system into a web application using **React.js** and **Ethers.js**, enhancing user interaction and increasing active users by **40%**.

PROJECTS

Aryan Hospital [🔗](#) | **React.js, MongoDB, Nodejs, Express, Multer, TailwindCSS**

- Developed a **patient management system** with **React.js** and **MongoDB**, reducing data entry errors by **40%** and enhancing patient care efficiency. Designed an **admin dashboard** for efficient data management.
- Enhanced system performance with a robust **Node.js** and **Express.js** backend, achieving a **90%** reduction in data retrieval times and improving overall system responsiveness.
- Engineered secure file uploads with **Multer**, fortifying data integrity and availability, and reducing security incidents by **90%**, contributing to a stable and reliable user experience across the platform.

GEPS Blockchain App [🔗](#) | **Next.js, Solidity, Ether.js, Hardhat, Shadcn, IPFS**

- Designed and implemented a **full-stack blockchain application** using **Next.js** and **Solidity**, facilitating secure and transparent transactions on the **Ethereum blockchain**.
- Developed **smart contracts** for decentralized asset management, ensuring **100%** integrity and traceability of transactions.
- Implemented **IPFS** for decentralized storage in the **GEPS project**, ensuring **100%** data reliability and availability, reducing data loss incidents by **20%**, and improving data access speed by **30%** through innovative solutions.

MOW Blog App [🔗](#) | **React.js, Firbase, MongoDB, Nodejs, Express, TailwindCSS**

- Developed a **full-stack blogging platform** focused on **anime and game-related blogs**, enabling users to create, edit, and delete posts, enhancing user engagement by **70%**.
- Implemented **authentication and authorization** features using **Firebase**, ensuring secure access to the platform and reducing unauthorized access by **80%**.
- Optimized **database queries** and **API endpoints**, resulting in a **60%** improvement in data retrieval times.

CERTIFICATIONS

- Certified Blockchain Professional v2 - EC-Council
- JavaScript (Intermediate) - HackerRank
